

2021 ANNUAL GENERAL MEETING Trails Coordinator Report

By Marion Boom

I think it is safe to say that 2020 was definitely a year to remember (or maybe forget). Unfortunately, due to the pandemic only three of the scheduled events were held with the remainder being cancelled. Thankfully we were able to get a good season of snowshoeing in before everything closed down.

With all group walks cancelled for several months, many members continued doing “neighbourhood walks” throughout the summer and supporting their local PTs.

In late August things started opening up again and we were able to put on group walks and also hold our third event for the year – The Tale of Two Cemeteries – which, from comments received, was well liked by all who participated. Our group walks was for a short time as, once again things closed near the end of Dec.

Please find below the Club PT Stats for 2020:
